SUMMARY

With a lifelong interest in technology and robotics, I jumped into the opportunity to learn how to code with Grand Circus - Grand Rapids. With an expected graduation in March 2018, I am looking to join a team as a .NET developer and apply my programming skills in the real world. I have a proven ability to work under a deadline, effectively communicate and work with a team to impress clients and add value to an organization.

EDUCATION

.NET C# Bootcamp
Grand Circus Grand Rapids
10-week full-time program
March 2018

Coursework - General Education
Muskegon Community College
2014 - 2017

EXPERIENCE

Bus Driver
Wisner Rents Canoes
Newaygo, MI — 2015 - 2017

- Ensured safety and quality of passengers and equipment in a timely fashion.
- Effectively communicated stops and destination information to passengers.
- Managed and conducted repairs for all equipment.

Build Crew
FIRST Robotics - Team NC Gears
Fremont, MI — 2011 - 2014

- Designed and built a robots according to strict specifications under an intense 6 week deadline.
- Quickly repaired the robot within an hour between matches.
- Collaborated with a team of 30 to win the 2011 FIRST Robotics Michigan State Championship.
- Team was named a 2013 International Finalist.
